— Practical Essay on Milking, 178	
— Sander's School-Books, 148	
— Steam Plowing, 178	
Breeding, Principles of, &c., 59, 61	
— Remarks on, 181	
Broom Corn Seed, for feed, 91	
Budding, in August, 127	
Buildings, of Cobble Stone, 11, 57	
— Farmers' Cottage, plans of, 23, 64	
— Plans of cheap Houses, 25, 197	
— Barns and Sheds, 81	
— Large Barn in Ohio, 164	
— Ash-House and Smokery, 82	
— Church and School-House, 112	
— Farm Houses, remarks on location and building, 187	
— "Bulldozing," not successful, 79	
Bushes, proper time for cutting, 82	
Buckwheat and Rye on the same land, 28	
— Rye and Clover, on the same land, 161	
Burns, cure for, 168	
Butter making, necessity of improvement in, 157	
— Manufacture of, 105—Washing, 114	
— American, abroad, 93	
Dairies of Holland, 124	
— How made in Vermont, 27	
— To make in Winter, 70	
C.	
Cabbages, culture of, 76, 94	
Canada Thistle, to destroy, 43, 79, 101, 106, 107, 109, 116, 128	
Canker Worm, remedy for, 128	
— on the Elm, 128	
Carrots, large crops of, 24, 37, 89, 123	
— the white, 35	
Carts, utility of Horse, 61	
Caterpillars, to be destroyed, 73	
CATTLE, Ayrshire Cows—Mr. Randall's, 88, 181—History of, 188	
— Breeding, remarks on, 69, 61, 181	
— Bulling, unsuccessful, 79	
— Care of in January, 11—February, 30—March, 42—April, 58—May, 75	
— Call from a Yearling, large, 24, 32, 64, 89, 91, 120, 156, 175—remarks on rearing, 60—wintering, 71	
— Choked, to relieve, 167, 197	
— Cows, worth having, 32, 92—best food for, 12—remarks on feeding, 76, 133—good milkers, 174—remedy for kicking	
— Diseases of—Hooftail, cure for, 16, 176—Swelled Head, 90—Bloat, cure for, 29, 88, 117, 144—Garget, cure for, 126, 157	
— Murrain, cures for, 117, 133, 143, 169, 187	
— Free Martins, described, 37	
— Herd Book, 143	

CATTLE—Herefords, notice of, by Wm. Kingham, 116—by Wm. Cother, 122—by Sanford Howard, 19—by L. F. A. 166—Mr. McIntyre's Cow, 21—Bull, Sir George, 49—Prize Cow, 16—by W. H. Messrs. Bates and Price, 16—by H. H. Southam, 49, 83—by H. S. Randall, 107	
— Importation of, by Mr. Letton, 150—by Mr. Prentice, 176

— Tunicum, notice of, 78	
— Transportation of, 40, 80	
— West Highland, description of, 16	
Charcoal, growing plants in, 122	
Charlock, or Wild Mustard, 77	
Cheese, new mode of making, 168	
— Colored, injurious, 92	
— Curing and pressing, 114	
Chemical manures, 110	
Cherry, the Morello, 110	
Chess controversy, 88, 76, 114, 133, 136, 143, 150, 155, 176, 181, 194	
Chestnut timber, inquiries about raising, 86	
Chimneys, hints about building, 90, 144	
Chinch bug, 21	
Churning in Mexico, 39	
Cisterns, made of cement, 143	
— Filtering, how built, 149	
Clearing new land, 30—remarks on, 162	
Clover, on corn land, 130	
Clover Seed, on sowing, 164	
— covered with pine leaves, 24	
Coal, notice of Bloomsburg, 85	
Cockroaches, to destroy, 133	
Columbia Floral and Hort. Society, 176	
Comments on Cultivator for June, 130—July, 150—August, 166—September, 183—October, 193	
Compliment, merited, 144	
Cooking Stove ovens, to regulate, 83	
Corn crusher and sheller, 86	
Corn Planter, 60	
Corn Laws of Great Britain, 107	
Corns, cure for, 88	
Cot. n., new variety, 44—press, 86	
— culture of, in West Tennessee, 100	
— variation in prices of, 46	
Cow Parsnep, 34	
— respondents, hints to, 40—notice to 24, 32, 56, 72, 88, 104, 120, 136, 162, 168, 184, 200	
Crops of 1841, 136, 154, 156, 181	
— of J. F. Osborne, 89	
— From 5 acres, 174, 177	
— Premium, 190	
Cucumbers, culture of, 75, 117	
— To protect from bugs, 88	
— To destroy bugs on, 9	
Curculio, to destroy, 90	
"Cure all," remedy for wounds, &c., 16	
Cultivator, circulation of, 24	
— Notice of next vol. of, 185	
Current bushes, worms on, 123	
Cut Worm, 119	
D.	
Dahlias, preservation of roots of, &c., 107	
Dairies of Western Reserve, 33	
Dairies, the white, valuable, 104, 181	
— Not valuable, 131	
Dictionary of Agricultural terms, 15, 21, 47, 63, 126, 142, 166	
Diet, change of, 114	
Dogs, sagacity of, 187	
DOMESTIC ECONOMY:	
— To make candles, 96	
— To color Madder, 29	
— To cook Hams, 107	
— To make Sweetmeats, 117	
— To make experiments with wood, 46	
Draining, experiments with wood, 46	
— Essay on, by H. Stephens, 131	
— In October, 159	
— and Irrigation, 96	
Drills and drill culture described, 43	
— Planting in, 82	
Drouth, protection against, 134, 135, 163, 166	
E.	
Earl Warwick's letter, 60	
Eggs, large ones, 61	
— To have constant supply of, 92	
Eighteen hundred forty-one, 17	
Emigrants, advice to western, 19, 63, 97	
English correspondent, letter from, 120, 185	
— remarks on, 166	
Ergot, description of, 15	
Errata, 15	
Erratic Rocks, 37	
European Agriculture, notes on, 26	

Evergreens, transplanting, 10	
Excretory power of plants, 17	
Experiments in Maryland, 84	
Extract, vegetable, 15	
F.	
Fallows, described, 15—remarks on, 94	
Farcy, description and cure of, 15	
Farming, how to succeed in, 15	
— Compared with the professions, 17	
— System Essential in, 43	
— On the Prairies, 81	
— without Rum, 110	
— in North Carolina, 151	
— profits of, 189	
Farmers, good doctrine for, 32	
— should "pay as they go," 46	
Farm Reports, B. G. Avery's, 14	
— Enoch Marks', 83	
— productive, 143	
— houses, location and building, 167	
Farms, profit of large and small, 27	
— price of in Massachusetts, 46	
— advice to purchasers of, 153	
Fat, composition of, 31	
Fattening animals, rules for, 139	
February, work for, 30	
Fecundation, process of, 31	
Feeding, preparation of food for, 31	
Feet, to protect from frost, 39	
Feldspar, composition of, 31	
Fences, notices of, 31	
— of board and stone, 39	
— live trees for posts of, 61	
— expenses of, on Prairies, 180	
— stone wall, how to build, 145	
— post and rail and sod, 151	
— should be repaired in spring, 88	
Fermentation, process of, 31	
Filberts, culture of, 107	
Filtration, soil subject to, 31	
Fire places, to prevent smoking, 144	
Flail described, 31	
Flax, culture of, 68	
Florida fruits, 191	
Flour trade on the Erie Canal, 29	
— machinery sent to Austria, 32	
Flowers, remarks on, &c., 111	
— the love of, 161
